## Summary

I designed this USB cable organizer so that I would be able to move it if I necessary.

---

[Household](#) > [Other House Equipment](#)

---

I designed this USB cable organizer so that I would be able to move it if I necessary.

I have included 4 different versions, a straight and a curved version with a snap-in insert and also a straight and a curved version without an insert

This was the first time I tried to design an snap together Thing, and it turned out fairly well.

Please let me know if you have any problems.

I designed this for a standard (1 1/2") (38 mm) thick table. If your table is a different thickness, message me with the size, and I will try to help you out.
