This updated version of the Easter Egg Twist Container adds an extra layer of cuteness—**bunny ears**! Now, both the **plain** and **ribbed** egg designs come with two styles of top sections featuring integrated ears:

Perky ears – Tall, upright, and curved gently inward for an alert, playful vibe

Floppy ears – Loosely arched and tilted outward for a relaxed, laid-back look

Each pair of ears is attached to a redesigned top piece that fits seamlessly with existing models. Already printed the eggs? No problem—these new lids are fully compatible and snap right into the original design without affecting twist function or threading.

This model still includes:

Modular 4-part design with 3D-printed threaded connections

Multi-color printing (no MMU/AMS needed—just swap filaments)

Two surface styles: **Plain** and **Ribbed**

Two ear styles: **Perky** and **Floppy**

Print just the new bunny tops or download the complete set.

Included:

- Full eggs + ears in one 3MF
- Bunny ear tops only, arranged in easy-to-print plates

Whether you go classy, bold, or pastel—these bunny twist containers are perfect for Easter gifts, decorations, or spring-themed fun.
