Bring a touch of unique, aquatic charm to your everyday carry with this articulated **fishbone keychain**! Designed for 3D printing enthusiasts, this captivating model boasts an **articulated, flexible** design that moves just like a real skeleton.

It's engineered for convenience, featuring a clever **print-in-place** design that means no assembly is required after printing – simply remove it from your print bed, attach your keys, and enjoy.

The intricate details and dynamic movement make it a fantastic conversation starter and a perfect gift for ocean lovers or anyone who appreciates innovative 3D prints.
