Created a square version of my simple pot to hold 4 seedlings - <https://www.printables.com/model/203431-split-seedling-pot>

Use this to "pot up" your plants before they are ready to go into the garden.

You could grow herbs in this indoors.

Large holes at the bottom allow water to drain easily and to remove the plant when it's ready to go into the garden.

Designed in Fusion 360.

Printing Instructions

- Printed in PETG, 0.3mm
- No supports needed

If you print this, please post a make. Feedback and suggestions are appreciated!
