[heiligabend](#)

This 85mm long christmas tree ornament has a very nice slim shape and is easy to print. I recommend to use metallic filament for an even better look as mentioned on the pictures.

The cap is made for all XMAS ornaments with a 14mm top. Just glue it onto the ornament and its ready for XMAS.

We recommend to print the ornament upside down with 10mm brim.

If you need different sizes for your XMAS tree you can scale ornament & cap up/down as you need it.

Material: PLA
Layer height: 0.2mm or better
Infill: 0-10%
Ornament with 10mm brim
