[submersible](#)

The model submersible is scale 1:42

My regards to the families of those involved in this tragedy. What happened was very unfortunate and I don't want to minimize that. The model has two versions, one with a cover for the thrusters, and one without. I tried my best to replicate the submersible, but there are not many good images available, so I had to skip or simplify some details. All of the wiring has to be added post-printing. Included is an f3d file to edit the model if you wish to do so.
