

SAMPLE - DRAGON'S REST CLIP SYSTEM

SUGGESTED CONNECTION

-  DRCS Clip
-  DRCS Clip Tab
-  DRCS Clip Discrete

NOTES

Use the standard **DRCS Clip** to connect all of the floor parts together. You can print soft and hard versions of this clip depending on how strong you want connection your connection to be.

Tab clips work great connected to the walls, allowing you to swap out walls for doors, rubble etc. mid game.

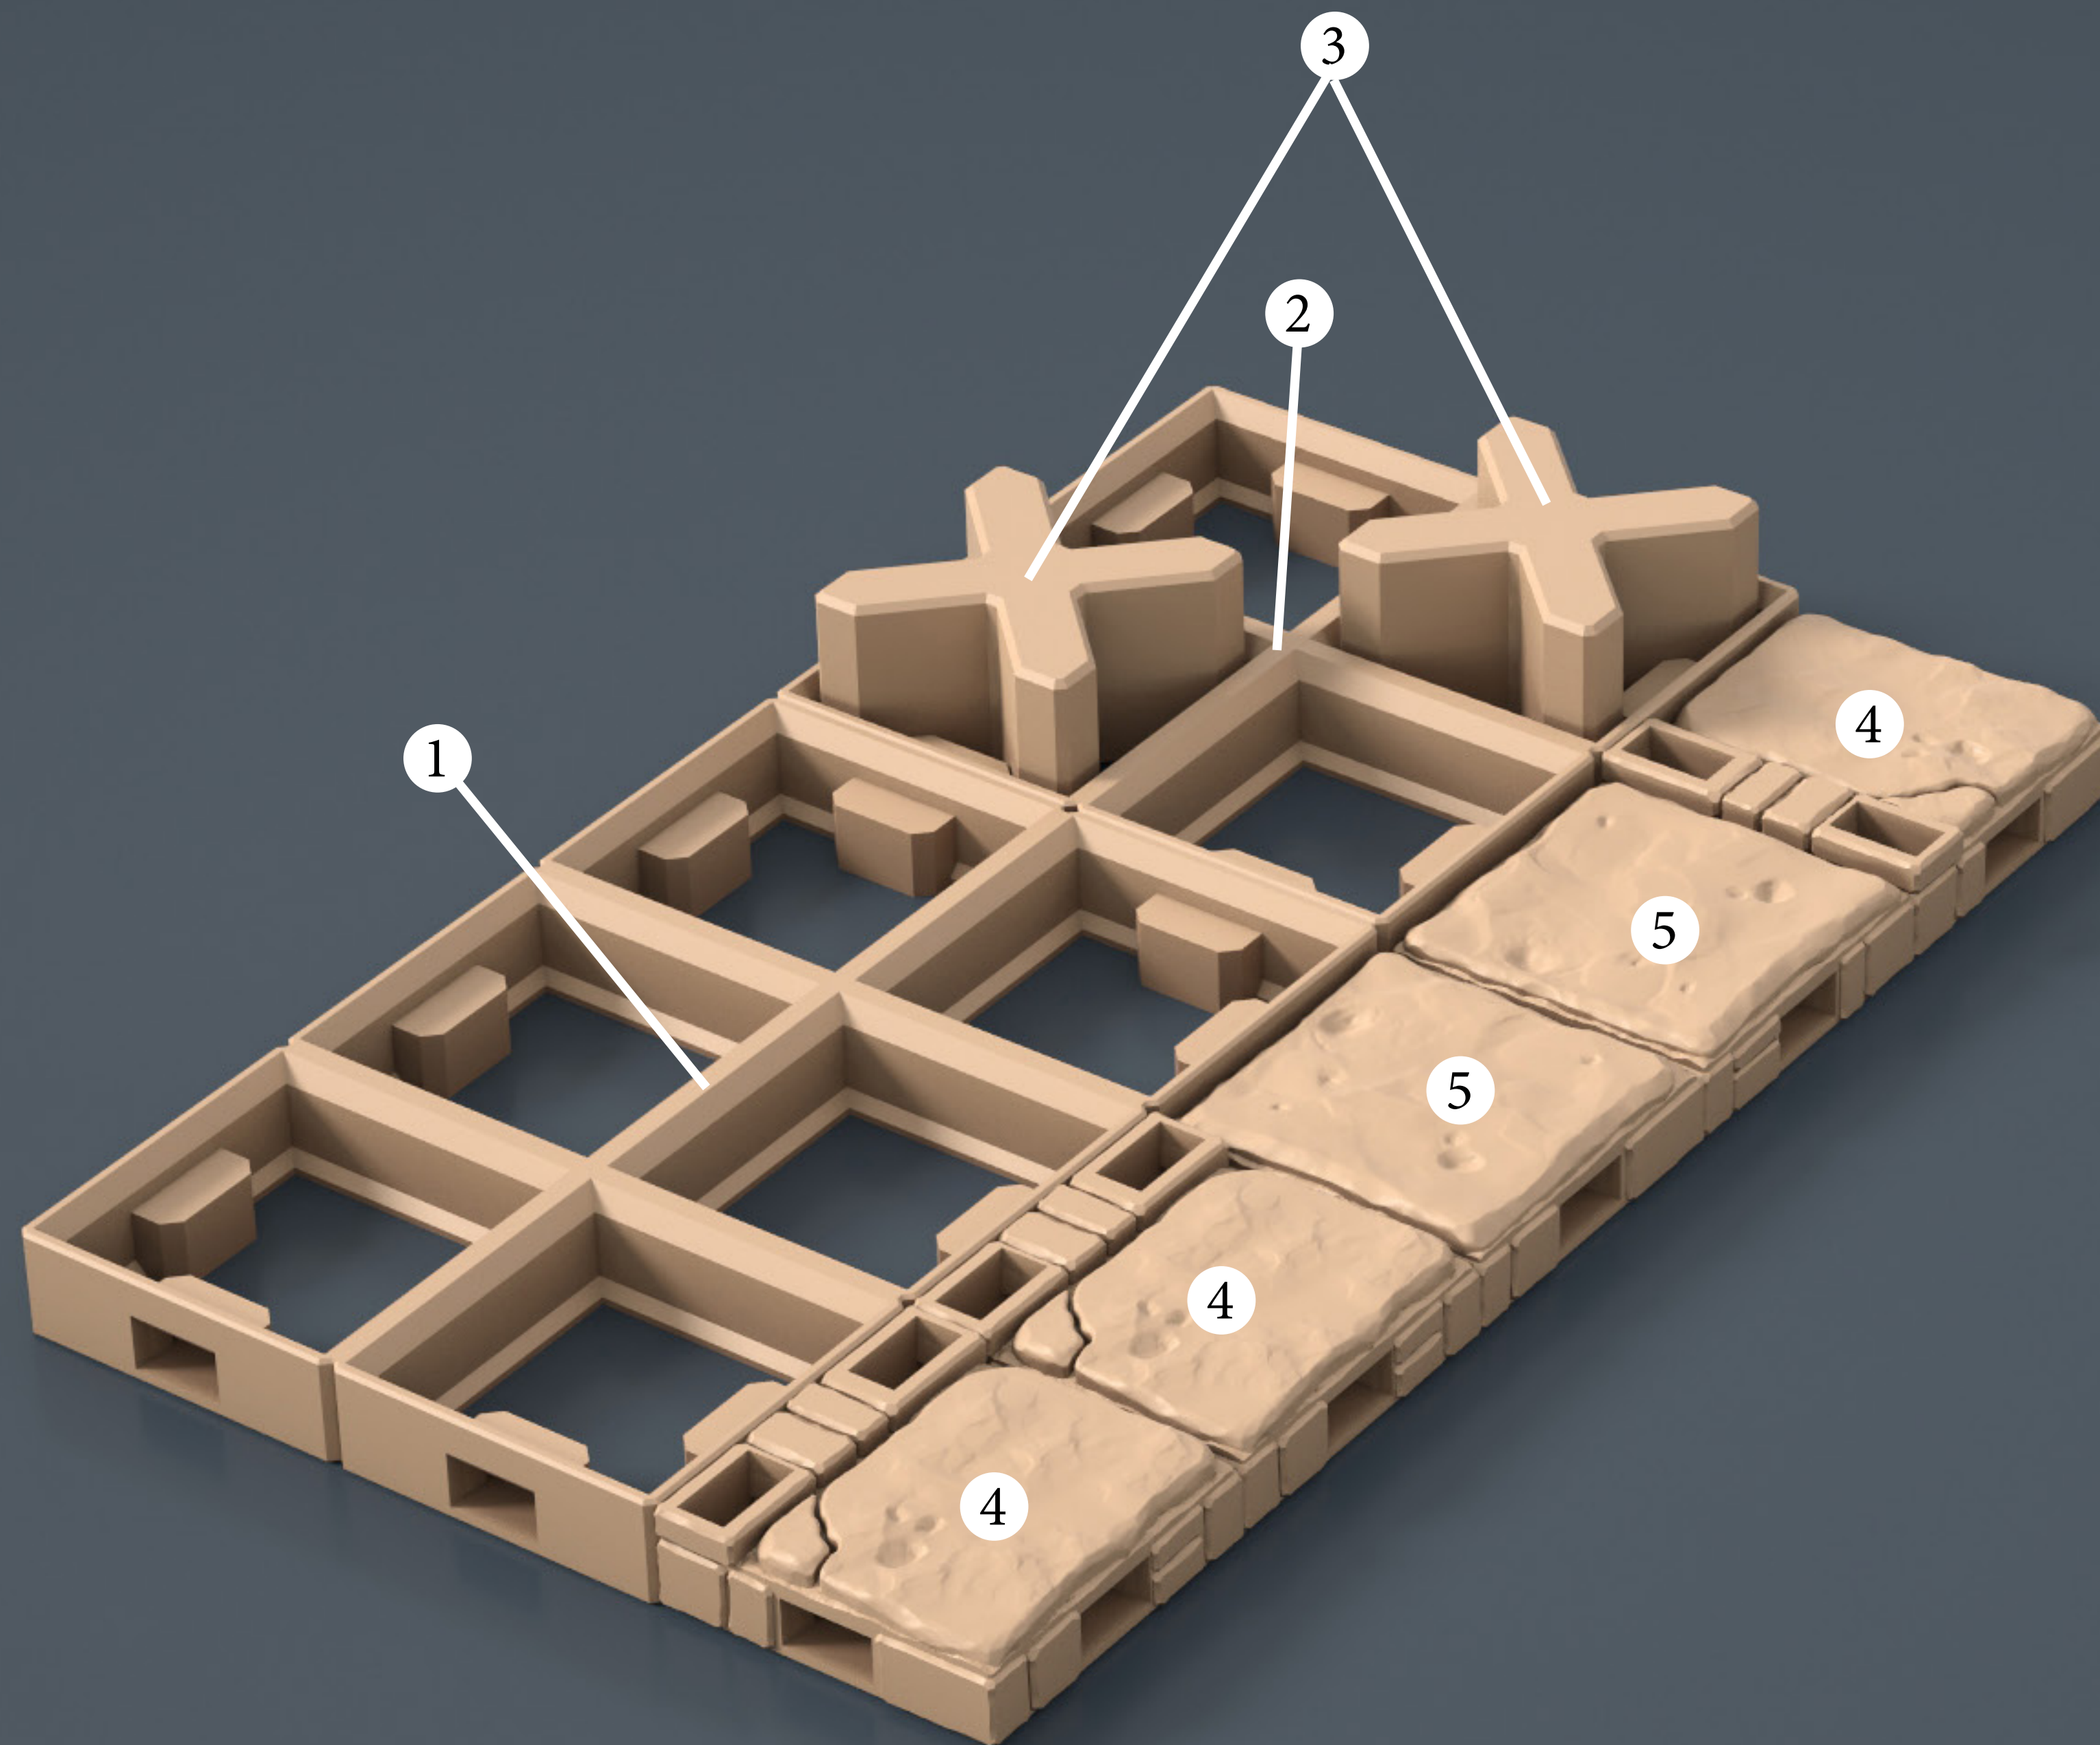

This guide takes you through a sample build to demonstrate the flexibility of The Dragon's Rest Clip System. These files are a small sample of what is available on

 **PATREON**

 **TRIBES**
