This sample pack contains a small selection of my files from the **Essentials Drive** that is accessed as part of **The Dragon's Rest Quest Tribes** and **Patreon**.

The included guide will take you through a small build demonstrating the various parts of the **Dragon's Rest Clip System** (DRCS). It shows how you can create simple tile layouts or get more creative by mixing them with the **Dragon Drops™** riser system to easily add height. More details on the DRCS are available [here](#).

If you enjoy printing these, come and support me with other adventurers on **The Dragon's Rest Quest!** Join the community where these files were originally released and continue to support the creation of exciting new content. Subscribing to the **Adventurer** or **Merchant** tiers and you'll

unlock hundreds more files and gain access to monthly releases with exclusive content only available to **Tribes** and **Patreon** members!
