How I Designed This**Intro**

This is a remix however I can no longer find it (licensing perhaps?). I'm hoping Apple has a heart.

Anyways, the original plan was for an older, thicker Mac and had an opening of roughly 21mm but my 2019 MacBook was quite a bit thinner so the opening on this design is 17.25mm and fits my laptop perfectly.

I also added rubber feet to the bottom for extra traction.
