Summary

I've been packing stuff and sometimes just cant find my pen knife or cutter. I printed this to make it more convenient

0.59 hrs

Created this tape cutter for convenience. Great for packing boxes. Simple and it works well for me.

Only takes 40mins to print. No supports required! Print upright.

0.2mm layer height, infill don't matter (default 20%)

Will be adding more variations, different sizes etc. Do let me know if it works for you! or if you need another size.

Thank you for looking!
