**No supports required. Just slice and print!!**

4 Versions available:

- Shark\_v2\_A.stl: Original design, movable jaw
- Shark\_v2\_B.stl: Friendly face, movable jaw
- Shark\_v2\_C.stl: Original design, NON-movable jaw
- Shark\_v2\_D.stl: Friendly face, NON-movable jaw

The non-movable versions are intended for children, as teeth are quite sharp. Or just in case you have trouble printing the movable one.

**Best results if you use a thin layer resolution (0.16 mm works perfect)**

After printing, the tail and the jaw should get free with a little force:
