Summary

A quick replacement idea I had for a watering can sprinkler head 'rose'

[Household](#) > [Outdoor & Garden](#)

Tags: [sprinklerhead](#) [wateringcan](#) [plantwatering](#)

Two angles because I made one, it worked perfectly, but wasn't at the angle normal sprinkler heads are, so I increased the angle. Both work well, second one in action.

Made for a can with a 18.5mm diameter push-fit nozzle.

Printed in PETG, 0.2 layer height. 4 walls, 5 top and bottom so that the perforated surface is solid (1mm thick)
