updated 25. 4. 2022 | published 25. 4. 2022

### Summary

Since I didn't find a model that fit my needs, I decided to design my own screws.

[Household](#) > [Outdoor & Garden](#)

Tags: [automower](#) [electricallawnmower](#) [garden](#) [husqvarna](#)  
[mower](#) [roboticlawnmower](#) [screw](#) [screws](#)

Printed in PETG without supports. Just slice the file straight up. I printed the parts with 5 perimeters, 100% infill and 0,2mm layer height.

The screws also work for the garage of the Automower.

The grip in the ground is similar to the original screws.
