Summary

Super easy to print Dice Tower, minimalist perfection.

A remix of a fantastic foldable dice tower made by Ipreventdeath.

Model prints extremely easy, is very resistant to warping and easily folds - superglue for permanent fix or a rubber band to temporary assembly. No overhangs, no bridges.

I've made some adjustments to improve the model:

- Tray was enlarged to facilitate higher dice count
- Bottom ramp was extended and enlarged, so the dice won't stop inside the tower.
