Perfect for the spooky season, these are articulating Flexy Skelly toys that I designed. Somewhat inspired by the Flexi Rexi, these are extremely fun articulating toys. It comes in two variations, the normal size, and the longer one. The main difference between them is that longer size is more posable.

Recommended settings:

- 1) 2-3 perimeters
- 2) 0.2-0.25mm layer height
- 3) 5-10% infill

If you want to sell them online, all I ask for is credit :)
