A low poly model for 3D-printing of Rodin's Le Poète, The poet in English, and commonly know as The Thinker.

Print instructions

All three models somewhat complicated prints but the easy to print one uses bridges for the worst overhangs, and has a smaller "hand" to make printing easier. I added one with a thicker left arm.

10K downloads update:
Thank you everyone who has downloaded my model, I thought it would be fun to map out all makes compared to the real sculptures

(as of 2019-04-19)

LOWEST POLY ◈ x81   REAL STATUE ● x64

If you are from a place in the world without any Low poly thinkers, feel free to make one with the "I Made One button" and I'll add it to the map.

If you want to have this model but don't have a printer, you can buy it from one of these stores:

- AureumLocus Australian Etsy store
- Jakes American Etsy store
- Fatbots Canadian Etsy store
- Monkeylabstudios sells a bookend version, see it in their: French Etsy store

I get a small percentage for each sold model.

My paypal account is: Paypal.me/LxOSTHLM

I realized a lot of people have been trying to profit of this model. If you don't have a deal in writing with me and pay a agreed upon amount you're not allowed profit in any way of this model.

Legal notice for Etsy's legal team: **HEY THIS IS MY MODEL SINCERELY - LEO S.**
