Japanese inspired self draining soap dish. Minimum surface area keeps your soap fresh and dry.

My original design was first published here: <https://www.thingiverse.com/thing:2756347> and has 60k downloads with many makes and remakes.

Easy to print without supports. Makes a great gift and many soap makers have reached out sell along with their soaps.

Update 3/29/18 - I uploaded taki-soap-dish-xl.stl which adds 2 extra slots for longer bars of soap. It's 145mm wide.
