## Summary

An articulated torture test model featuring toast!

[3D Printers](#) > [Test Models](#)

Tags: [toaster](#)

It's the Torture Toaster! The guys at Edge of Tech challenged me to make a torture test that would be fun and interesting, and this ridiculous thing is where I ended up :) This will test your print tolerances, overhang handling, and most of all, your bed adhesion! No supports required, though! It's not as torturous as it sounds, though, and with a little perseverance you'll get it printed! :D
