Summary

A very small poker case that holds 100 chips, a deck of cards, and a dealer button.

Tags: [case](#) [playingcards](#) [poker](#) [storage](#)

This model is made to hold 4 stacks of 25 chips and a standard deck of 52 or 54 cards. It is also possible to place the dealer's chip on top of one of the stacks of chips.

I suggest printing using PLA with 15% infill, 0.6mm nozzle, and a 0.32mm line height.
