We have ledges above some of our doors so I made these hanger helpers so we have a place to temporarily hang some clothes. Our ledges are 1 1/2", like a 2x4. I'll glue some felt pads on the feet. Holds on with gravity, leaves no marks if you have felt pads.

I used PLA and some 3mm pins to help the feet swivel. Print arm on it's side and feet on the pad surface, NO SUPPORT needed. I used 4 parameters and 30% gyroid fill for strength.
