Two ruined stone archways to elevate your fantasy tabletop game, available for free!

These versatile arches are great for mixing into your existing terrain sets, or as a starting point for building your own ruined stronghold, sacred site, or forgotten passage.

This set includes:

Broken Gothic Arch – A stylized ruin with crumbling blocks and dramatic angles

Rounded Stone Arch – A broader, reinforced structure perfect for flanking units or creating narrative choke points

Both pieces are designed to print easily and fit seamlessly into modular terrain layouts. Ideal for fantasy skirmishes, dungeon crawls, or as scatter cover in RPG or wargaming sessions.

3D printing settings

Recommended Layer Height: 0.2mm

Bed Temperature: 60°C

Print Speed: 50mm/s (first layer: 25mm/s or lower if needed)

Optimized for 28–32mm scale miniatures
