Summary

Hi together, something for your IKEA Risatorp, no matter if you use it for fruits or other things. Make it your own!

Hi together,

I designed a seperator for the IKEA Risatorp basket. It's still V1 so let me know if you have comments.

About the print: The seperator fits the IKEA Risatorp basket (see link). In addition I did added a small foot for more stability. As you can see I use it for fruits & veggies but you can also use it for seperating all other kind of household products.

In case you want to remix it, have a cool idea or use it in any other way please contact me.

Have fun :).
