Small cable tags for cables from 3 - 9mm diameter.

If a symbol is missing, let me know.

Layer height 0,2, nozzle 0,4, Color change at 1.4mm (layer 7).

Please print in PETG with three perimeters on the smooth steel sheet.

It is a little fiddly to release the tags from the print bed. It is best to go under the hangers with the spatula and work up to the sign.

Happy organize!
