Easter Bunny Terminator **BT-101** - two parts

He appeared from the future and is capable of terminating anything in his path :)

The two-piece design allows the egg to be split into two halves using a twist lock. This way you can put something to surprise in the egg or just put the "Kinder Surprise" egg in. When assembling, connect the two parts by turning them opposite to each other until you hear a click. Now you have a whole egg full of surprises.

Print them in different colors, hide them somewhere and have fun while you look for them :)

**IMPORTANT: For better results, print at a lower speed. No support needed.**
