### Summary

Brush Holder which helps drying with the bristles facing down, rather than let the water run down the ferrule

[brushholder](#)

Brush Holder which helps drying with the bristles facing down, rather than let the water run down the ferrule.

Took clearly some inspiration from this model:

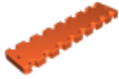

<https://www.thingiverse.com/thing:2800643>

I also use the original model for smaller brushes, but my bigger ones won't fit.
