Summary

From the outside the Pen Cup looks completely normal. But the Magnetic Opener allows to hide some things inside :D

From the outside the Pen Cup looks **completely normal**. The secret Case can only be opened with the **Magnetic Opener**.

12 small round magnets are required for the Pen Cup.

- **Size:** 6x2mm (diameter: 6 mm | thickness: 2 mm)
- **Amazon:** https://www.amazon.de/gp/product/B07RT9MY52/ref=ppx_yo_dt_b_asin_image_o01_s00?ie=UTF8&th=1

I recomment using **black** PLA.

Less Support-Structures are required.
