Summary

nice Adjustable Foldable Phone Stand

[Household](#) > [Office](#)

Tags: [holder](#) [stand](#) [samsung](#) [phone](#) [adjustable](#) [iphone](#)
[foldable](#) [smartphone](#) [handy](#) [handyhalter](#) [halter](#)

You can adjust the cell phone holder in both swivel joints using the 2 rotary controls.

There are small snap-in points in all components to prevent it from slipping in the direction of rotation

you can also fold it up to save space!

I have uploaded a project for Bambu models, with manually selected supports :)
