Summary

I love my fidget toys - but also need a place to store my pencils and pens on my desk... Two birds one stone

[Household](#) > [Office](#)

Tags: [fidget](#) [pencilholder](#)

I enjoy fidget toys alot - and have made several screw-like ones. Rather than having several extra items on my desk I am slowly trying to combine what I can, and thus the fidget pencil holder. I added a 0.2 mm tolerance between the ring and the cup.

Printed well on my ender 3 v2 at:

.12 layer height // no supports // PLA

Created in Fusion 360 - fusion archive and step files also included as well for remixing - as well as the .stls.

Model files

fidget-pencil-holder.stl

☐ Both parts

ring.stl

☐ Just the outer ring

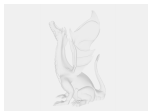

pen-holder.stl

☐ Just the pencil holder
