Model Description

Introducing the passthrough Easter egg, a special 3D creation that combines the charm of a festive decoration with the practicality of a fun fidget toy. This model allows for endless creativity with customizable color variations, making it perfect for Easter celebrations or year-round enjoyment.

Printing Instructions

Recommended print settings:

- Layer height: 0.2 mm
- Infill: 15–20% (depending on preferred sturdiness)
- Supports: Recommended

Suggested material: PLA or any colorful filament of your choice.

For an enhanced visual appeal, print individual sections in various colors and assemble them post-printing.
