Hi everyone. I'm releasing this product for free because I want feedback from as many different users as I can get. So that I can improve my work and can provide more digital stuff with better quality. If you can print it, you can sell 3d printed figures, don't have to pay me(although it is highly appreciated if you do) just a critique or nice feedback will be appreciated. Thanks.

With this purchase, you'll receive an STL file of all parts and a source file(.blend file)

You can join my Facebook group I started to get in touch with me. Here is the link: <https://www.facebook.com/groups/1303095673613120/>

Note: This product is not tested with any printers.
