Summary

I designed this storage unit to store really small things.

I made this for no particular reason. The roll up door is pretty fun to play with. You can put a button lamp on the inside ceiling for a nice lighting affect.

The inner wall file may need slight supports just at the base to get started but you should be able to print this with no supports.

- Print
- Paint (if that's your thing)
- Superglue
- Print the Money image on 4x6 inch photo paper and cut it out to fit the money stack. Or however you want to do it.
- Hide things from people

Model files

outer-walls.stl

inner-walls.stl

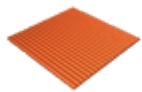

☐ This is the only one that might need supports at the base depending on your print settings.

floor.stl

roof-base.stl

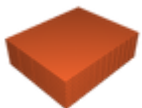

roof-top.stl

small-front-panel.stl

roll-door.stl

stack-of-money.stl

☐ Optional Breaking Bad reference. Print the money picture on 4x6 in. Cut out to fit money stack.
