Summary

Coaster representing a nozzle extruding filament

[Household](#) > [Other House Equipment](#)

Tags: [coaster](#) [drinkcoaster](#) [drinkcoasters](#)

This is a coaster representing a nozzle extruding filament, it will prevent any spilling on your furniture.

The coaster diameter is around 105mm.

You can print the parts without support, you can add a bit of superglue for a perfect joint.

The prints above are made from Prusament Terracota PETG (0.16 layer height, 0.2 should be fine) and Amazon EONO silky silver PLA (0.2mm layer height).

Tiny bonus, you can rest your straw at the end of the nozzle ;) !

Enjoy your drinks !
