Well, okay, a pipe is not a cube 😊

The hole is hexagonal, **5 mm**, made for the cord of my hoodie.
Inside, as an experiment, I created something like a spring.

The bricks and the question block I printed in 2 colors, and I added the 3MF profile.

In the 3MF profile, the file with the question block is different from the separate STL file attached here.

Easy to print, no supports

Personal use only⚠
