The scrying pool makes a dandy modular prop for gaming. We decided it required a few more inserts. Here's a giant flame that fits neatly in place where the water insert would go.

It's not a proper flame unless you can see it from orbit.

Print Settings

Printer Brand:

Prusa

Printer:

i3 MK3

Rafts:

Doesn't Matter

Supports:

Yes

Infill:

10%

Notes:

Here's a link to the scrying pool: <https://www.thingiverse.com/thing:2016098>

Prints without supports if you don't care about a little grunge on the underside. I trimmed it off with an xacto and it fit fine.

How I Designed This =====

modified the flame to add a cylinder that fit within the scrying pool.
