### Summary

This stand was designed to display my lightsabers but can be easily modified to fit others.

This lightsaber stand uses a single base frame with interchangeable attachments for different lightsabers. The included brackets fits all of my lightsabers. The top bracket stays the same but there are two sizes for the bottom, a majority fit the standard version best.

If you need to modify the attachments to fit your lightsaber, I have included a template that can be modified to suit.
