### Summary

A very simple headphone hook. I hope you like it.

6.41 mm  
1.94 mm

0.40 mm

PLA

25 g

Crealty  
Ender 3

[Hobby & Makers](#) > [Organizers](#)

A fairly simple yet robust headphone hook. The model in the images was printed with PLA+, but there is nothing preventing it from being printed with more durable materials such as ABS, PETG, or ASA.

I added a felt pad on the screw head to prevent any damage to the desk; despite this addition, it performs its task admirably.

Both models were printed using an Ender 3 with Cura slicer.
