A charming cat-shaped decoration designed to fit neatly next to a light switch or power socket. This cute kitty appears to be playfully reaching toward the switch, adding a warm and whimsical touch to any room. Perfect for modern or cozy interiors.

Mounting:

No glue required!

The model features a **built-in wedge-style clip** for **simple press-fit mounting** between the wall and the switch plate (or socket frame). Just gently slide the decoration into the small gap — no tools or wall modifications needed.

Use Cases:

Light switches

Electrical outlets

Decorative corners or wall accents

Notes:

Ensure there is a slight gap between the wall and switch frame (common in most standard installations).

This model does not interfere with electrical components.

Easy to remove and re-install in a different location.
