Its easier to find what you was looking for this way, than to search in drawer or box. This card holds 3 big SD cards and 6 micro SD cards. Take it out of the drawer, choose the right one, put it back.

It was inspired by this cool model:

<https://www.printables.com/model/20415-sdmicrosd-card-case>

but I did everything from scratch, every line in mine.

I printed it on ender 3 s1 pro, with 0.12, 15% infill. I did just 1 top layer, you can always add some if you prefer more finished look.
