[gingerbreadcutter](#)

Mold for making three-dimensional Christmas gingerbread cookies in the shape of **Santa Claus**.

Cutters are ideal for cutting shortbread cookies, gingerbread, sponge cakes and forms of sugar mass. With their help, you can also create fancy decorations for cakes with icing or colorful sprinkles.

The mass must be **thick enough** to properly reflect the shape (or you can modify the file and cut off the right amount of the upper part to be able to cut gingerbread cookies from thinner dough).

Printed with PETG with 0.2 layer height, 0.6 nozzle (but 0.4 would be better idea!)

You can find other cutters on my profile.

Happy printing and Meeeeeerry Christmas!
