Summary

Slotted organizers for common small parts storage drawers

Tags: [organizer](#) [storage](#) [divider](#) [drawer](#) [thingiverse](#)

Little organizer buckets that slip into standard small parts drawers you can buy online. This particular one is based on the Akro-Mills parts organizer on Amazon (<https://www.amazon.com/dp/B003P2UOCO>) but I'd imagine it would work with similar organizers as well.

It just slides into place and I've included several versions, including ones with 3-6 compartments as well as the individual dividers themselves. You can either arrange the dividers and merge them in your slicer or print them individually to create a two-compartment drawer (note that you will need to adjust the thickness to 2mm if you plan on doing this).

There is a slot in the front for you to print labels (I've included a template but any 40x20x1.2mm plate will work). You will have to add your text yourself (Prusa slicer makes this easy) and print with multiple colors.

Print Settings

Printer Brand:

Prusa

Printer:

i3 MK4

Rafts:

No

Supports:

Yes

Resolution:

0.2

Notes:

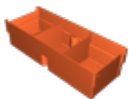

I chose to print the bottoms of the organizers in a bright orange to provide contrast against the black parts but this is optional.
