This 80mm christmas tree ornament sphere has a very nice shape and is easy to print. I recommend to use metallic filament for an even better look as mentioned on the pictures.

Available in TWO versions with SLIM & MEDIUM fins.

The cap is made for all XMAS ornaments with a 14mm top. Just glue it onto the ornament and its ready for XMAS.

We recommend to print the ornament with supports..

If you need different sizes for your XMAS tree you can scale ornament & cap up/down as you need it.

Material: PLA

Layeheight: 0.2mm or better

Infill: 0-10%

Supports: Yes
