updated 13. 2. 2025 | published 13. 2. 2025

Summary

Better design and angle for a stronger edge. Simple bed scrapper done in Plasticity with rounded edges.

[3D Printers](#) > [Accessories](#)

Tags: [scraper](#) [grattoir](#)

I suggest printing it with a layer height of 0.1 mm for a better finish and edges. See photo of the difference between 0.2 and 0.1 mm printing.

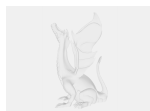

Dimensions

Length: 153.1 mm

Width: 70 mm

Height: 10 mm
