This decorative bowl features a knitted look. It is about the size of a large cereal bowl.

### Print Settings

Because of the amount of triangles in this model, slicing times will be longer than usual!

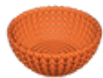

To reduce print time, I recommend using the standard infill for the first 2mm of the print, then using 0% infill afterwards. For a cleaner finish on the top of the bowl, you can lower your layer height (0.1mm-0.12mm) for the last millimeter.

The following filaments were used in the pictures above:

- Bambu Lab Matte Sakura Pink PLA
- Bambu Lab Matte Scarlet Red PLA
- Bambu Lab Crimson Sparkle PLA
- Bambu Lab Translucent Teal PETG
- Inland Lulz Green PLA
