Summary

This is a stronger remix of gdrag's silica gel container.

[3D Printers](#) > [Accessories](#)

Tags: [desiccantcontainer](#) [silica](#) [desiccant](#) [container](#)
[perforated](#) [silicagel](#) [funnel](#) [silicagelcontainer](#)

I found that the original version was a bit weak specifically on the bottom of the container and top of the lid. This version has been made a bit stronger so it can be thrown into a container with heavy objects without breaking.

Only the 75mm version of the container has been modified, but I could modify the rest if there is demand for it.

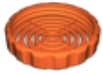

This remix is based on

Silica gel spool container
