## Summary

Little numbered bowls to put your screws or really anything in for temporary organization

[Hobby & Makers](#) > [Organizers](#)

Tags: [bowl](#) [electronics](#) [organizing](#) [screw](#) [set](#)

Whenever I'm taking apart a computers, laptops, phones etc I'm always trying to keep track of screws and where they came from or really sometimes just trying to contain them!!

These little bowls can help with that.

- Numbered so you can reverse the order you removed things in
- Small Aprox the foot print of a can of soda/Pop
- Stackable to take up little space
- Easily portable due to there size.
