Here is a print in place Auto-Locked Hanger.

The model was inspired by a similar wood hanger with marble ball seen on Pinterest, but adapted for 3D printing.

Please see the print versions below:

Print in place model (the ball is already in the main piece and needs a slight push to be detached)

1a. for double-sided tape

1b. for wall mounting using screws

Print with a pause (the pause is already preset) if you want the ball to be a different color (the ball must be printed first).

2a. for double-sided tape

2b. for wall mounting using screws

For wall mounting, 3mm Dia. screws to be used.
