Summary

Show your Halloween spirit with these simple yard stake decorations.

[Household](#) > [Outdoor & Garden](#)

Each decoration is printed in two parts that easily snap together. Print in glow in the dark filament to keep these visible throughout the night.

Once each part is printed, assemble by inserting the triangular pin of the decorative piece into the triangular hole in the top of the stake. To display, simply push each stake into the lawn, flower pot or garden. Enjoy!

These are large, measuring roughly 18-19.25 inches high when assembled (~460-490mm). The top parts dimensions with the pin are:

Bat - 280 x 175mm

Web - 191 x 210mm

Pumpkin - 194 x 211mm
