Scale: 45 x 50 x 80mm

This is the Japanese version of Shirakami Fubuki's mascot character Sukon-bu (Su-Corns) for her native viewers. I decided to add a little more personality and modeled it balancing on a burger to fit with Fubuki's theme.

You will need to increase the scale if you want the paws printed. Hollowing and adding holes to use less resin when printing larger is recommended; used up almost half a 500g bottle printing a large version (see photo above).

A pre-sliced version exists for ctb supported printers, edited in UVtools to fix errors while slicing.

tested at 80cm and 120cm z-scale on a Elegoo Mars Pro.
