### Summary

An easy print so you can hold your pens and paper

I needed a nice way to hold my pens, a couple of usb devices, a calculator and some notes on my desk, so i designed this one.

I also designed a couple of 6mm magnet holders in the bottom, so your paperclips dont fall out of the tray.

If you only need one for a couple of pens and the paper, i have included one as well. Have fun printing.
