Tags: [miniatures](#) [tiki](#) [tikistatue](#)

These four miniatures were created as a by-product of my Tiki decoration series.

Scaled to 60mm height

I recommend matt filament as it makes them easier to color.  
Need support when printing.

Generic 3mf includes all four figures  
The individual figures are available as STL

Bambulab-3mf file included. This can only be opened in BambuStudio!
